Patricia® App

With the Patricia® App, we've taken some of Patricia®'s most important features for attorneys on the move, straight into your iPad or Android tablet. Here, you can search for and view your cases and documents, log time and check your terms – excellent for when you're on the run.

Log In

Secure and easy access: you log in using your usual Patricia® username and password via a Secure Socket Layer connection (SSL).

My Terms

The first page you see is the My Terms page. Here, you can view your terms, sort them by several different criteria and apply filters to the result. You can choose between different views to easily show captured information based on your preference of card view or list view.

Find

You find yourself at a client meeting or at a conference and need access to case and name records for a particular case. You can easily locate the necessary case using the Patricia App's easy to use search function.

Once you have located the case, you'll have access to the detailed information from the case similar to the case summary you're used to in desktop Patricia. Simply touch the down arrow for each section listed and the section will expand revealing its data.

Need to see the associated documents? Those are also accessible through this search result. Simply tap on the document you would like to view and Patricia® App will download it to you tablet.

Time Logging

While you are on the run or at a conference and need to capture those hours , the time logging allows you to create clocks that are accessible both in Patricia® App and the desktop Patricia®. Where, you add Clocks, start or stop previously created clocks. Review details of previously generated clocks and modify details relating to them before finally submitting them on the case for billing.

Help

Need some assistance? Tapping the Help button in the upper right corner gives you instant access to the Help page.

Take a tour

On the start page, you'll find a short video tour that introduces you to all features in the Patricia® App. Just tap Start Tour to begin.

Download

The Patricia® App is available for download on the App Store as well as on Google Play. A true work horse – in your pocket!
